## Indiana Youth Development Professional Certificate Preparation for Indiana Youth Development Credential

The 18-19 credit Indiana Youth Development Professional Certificate is designed to help you understand the unique challenges facing adolescents and young adults in our rapidly changing world, understand and apply conceptual approaches to youth development, and to display an understanding of the development and impact of local, regional, state, and federal policies on youth. In this certificate, students will focus on working with youth in service organizations.

The Indiana Youth Development Professional Certificate may be completed as preparation for the Indiana Youth credential or as part of the technical certificate or associate of applied science in human services degree.

### Professional/Technical Core - 18-19 credits
